SKILLS SUMMARY

- **Programming Languages:** Java, JavaScript, Python
- **Web Development:** React, Node, Html, CSS
- **Database Management:** MySQL, Oracle, MongoDB
- **Frameworks:** Spring Boot, Django, Express, Flask
- **Tools:** Git, Docker, Firebase, Apache Ant

EXPERIENCE

- **Jindal Steel and Power Limited** Angul, India
Graduate Engineer Trainee, HSM Projects July 2023 - Ongoing
 - **Commissioning of HSM:** Collaborating in the electrical and automation department for commissioning of a cutting-edge Hot Strip Mill (HSM) plant as part of a 601Mn\$ project. Responsibilities include coordination and implementation of critical electrical and automation systems that are integral to the plant's operational efficiency and productivity.
- **Mecon Limited** Ranchi, India
Summer Training: IT Cell May 2022 - June 2022
 - **Software: Asset Management System Application:**
 - Engineered an Asset Management System software application using Java, Swing, and JDBC.
 - Employed Java, Swing, and JDBC technologies to devise a user-friendly solution for managing assets.
 - Markedly improved data accuracy and efficiency, reducing manual asset tracking by 20%. The system adeptly handled over 1,000 records, streamlining asset monitoring and reporting processes.
 - **Database: Oracle Server-Side Configuration:**
 - Executed and configured Oracle server-side tables and tablespace, optimizing database performance and enhancing data storage efficiency.
 - Implemented server-side configurations to optimize data storage within a 1 GB limit.
 - Optimized database storage to enhance resource efficiency and overall system performance, achieving improved data storage and utilization.

EDUCATION

- **Birla Institute of Technology, Mesra** Ranchi, India
Bachelor of Technology - Electronics and Communication Engineering. C.G.P.A = 7.83/10 June 2019 - May 2023

PROJECTS

- **GestMemo:**
 - Pioneered a high-performance web application focused on handpose recognition, achieving an impressive 95% accuracy rate in correctly identifying and mapping 21 crucial hand points.
 - Applied advanced state management techniques within the web application to optimize data processing and synchronization, resulting in a remarkable 30% increase in processing speed.
 - Achieved a fluid and responsive user experience by attaining a consistent 60-frame-per-second frame rate for capturing hand movements. This augmented the overall interactivity of the application, This resulted in a smooth and seamless user experience.
- **BookVault:**
 - Developed the 'BookVault' mobile app using Flutter. Crafted an intuitive and responsive user interface to ensure a seamless experience for students and optimize library resource management.
 - Managed a steady user base with 200 active users and consistently high user engagement, with an average of 50 resource searches and 10 book requests per day.
 - Contributed to a more efficient and user-friendly library experience, resulting in a 25% reduction in administrative workload and a 20% increase in student engagement. This enhanced the overall process, This commitment to optimization guarantees the seamless functionality of the application.

VOLUNTEER EXPERIENCE

- **Devincept:** Participated in 5-6 open-source issues of the full-stack developer program.
- **Mentor - Webium Workshop:** During a session that lasted 3 hours each day for 2 days, assisted 25 students in gaining a general grasp of web programming and exposing them to open-source contributions.

ACHIEVMENTS

- **Codeflow:** Accomplished 1-month open-source program and achieved a certificate. Codeflow-Certificate
